

FormView

```
classDiagram
    class FormView
    class SimulatorView["GroundSegment.views.SimulatorView"]
    SimulatorView --|> FormView
```

The diagram illustrates a generalization relationship. At the top is a white rectangular box labeled 'FormView'. Below it is a gray rectangular box labeled 'GroundSegment.views.SimulatorView'. A dark blue arrow points vertically from the top center of the gray box to the bottom center of the white box, indicating that SimulatorView is a specialized version of FormView.

GroundSegment.views.SimulatorView
